

From file to focus.

Start reading with PaperLens in a few simple steps.

Your document is the starting point.

Open a PDF or drag it into PaperLens. Explore its pages, mark the passages that matter and keep a few notes beside the original context.

01

Open a PDF

Choose a file or drop it into the reading window.

02

Find your place

Follow the outline, use bookmarks or search for a phrase.

03

Keep an idea

Add a highlight, a comment or a bookmark for later.
